

# COOKE INSTITUTE

## Evidence-Based Coaching and Professional Development for Teachers and School Leaders

Virtual services available

### OUR SERVICES

We empower educators (teachers and principals) to meet the demands of diverse classrooms. Our customized training plans are designed as individual training sessions, small group in-service training sessions, or both.

#### Special Education and Inclusive Coaching

We work to elevate a school's culture of inclusion by supporting general and special education teachers and leaders with the tools to feel confident and equipped to effectively teach students with a wide range of needs.

#### Early Childhood Coaching

We understand the demands early childhood educators face. We work with teachers and teaching assistants in real-time to identify their goals, design action steps and apply best practices to differentiate instruction.

#### Literacy Coaching

We empower educators to deliver reading and writing lessons that integrate evidence-based practices aligned to state standards, using explicit, systematic and developmentally appropriate methodology.

#### Leadership Coaching

We support school leaders (principals, assistant principals, educational directors) to increase their effectiveness as they build the capacity of their faculty to teach the next generation of learners.

#### Professional Development

Interested in large group faculty workshops? Are small group workshops or focused consultations best for your school or program? Cooke Institute customizes professional learning experiences to target the specific needs of your teachers, teaching assistants and leaders.

### OUR ANNUAL IMPACT: BY THE NUMBERS

More than

**6000**

# OUR APPROACH

Based on our 20+ years of experience, we've developed a highly effective approach to help teachers and educational leaders: Identify learning goals • Co-create coaching plans to address priorities • Implement coaching cycles • Facilitate reflection and feedback for continual learning and growth. We're with you every step of the way! Here's how our approach works:

# CLIENT TESTIMONIALS

*This was my first year working with my Cooke Coach and she was excellent. In my class this year I had several non readers. She helped me to see exactly where they were with reading and how to boost their confidence while fostering growth.*  
-2nd Grade Teacher, Staten Island

*“(Our Coach) helped me set up systems that allowed for peer-to-peer mentorship. I was able to set myself accountable for the program’s growth by creating schedules and means of checking in with staff while maintaining a positive relationship.”*  
– Pre-K Education Director, Bronx

*(Our coach) helped us improve the rigor of our program and has provided immense support with our students who learn differently. She is a superstar with an incredible amount of knowledge and dynamic interpersonal skills. Our program is better due to her consistent support.*  
- Principal, Staten Island
